Hello, I'm Esmael Mohamed, I'm 26 years old holding a Bachelor's Degree in management information systems.

During my Journey in college, I was planning to be a software Engineer I'm passionate about technology.

I have a lot of certificates in this field like CS50X from Harvard University i love translating ideas into efficient software and I'm also a student in a postgraduate diploma in computer science from Cairo University to learn more

I love learning new stuff in computer science and I'm trying hard to be a software engineer
